

Abdullah Al Maruf

01622650039 | maruf1921@gmail.com | [portfolio](#) | [github](#) | [linkedin](#) | [codeforces](#) | [ICPC](#)

PROFILE

Computer Science and Engineering graduate with hands-on experience in AI model training, deep learning, and full-stack development. Strong foundation in algorithms, machine learning, backend systems, and competitive programming.

EDUCATION

Daffodil Institute of IT

Dhaka, Bangladesh

BSc in Computer Science and Engineering

2020 – 2025

- CGPA: 3.81 (Achieved a perfect 4.00 GPA in two semesters)
- Relevant Coursework: Machine Learning, Data Structures, Algorithms, Database Systems

SKILLS

Technical: Python, C, C++, C#, JavaScript, Kotlin, HTML, CSS, React, Node.js, Flask, MySQL

Tools: Git, Docker, NumPy, Pandas, OpenCV, Machine Learning

CERTIFICATIONS

- Python Data Structures ([link](#))
- Using Databases with Python ([link](#))
- Supervised Machine Learning ([link](#))
- Advanced Learning Algorithms ([link](#))

EXPERIENCE

Outlier AI

Remote job

AI Model Trainer

Jan 2024 – Present

- Evaluated 300+ AI-generated Bengali and English responses, improving accuracy & coherence across model outputs.
- Generated and optimized 300+ high-quality prompts for multilingual AI tasks, enhancing response relevance.
- Contributed to multimodal training by annotating 2000+ real-world images for dataset quality improvement.

PROJECTS

Ocular Disease Detection using Deep Learning ([link](#))

Oct 2024 – Dec 2025

- Developed an automated system to classify 8 ocular diseases using efficient deep learning methods.
- Trained EfficientNetB0 using 5,000+ fundus images and deployed the model via Flask with <1s inference time.
- Achieved 96.94% accuracy and delivered real-time diagnosis with report generation.

E-commerce Website ([link](#))

Mar 2024 – Jul 2024

- Built backend architecture supporting 200+ products, secure login flow, and full checkout pipeline.
- Designed a MongoDB schema improving query efficiency by 30% and ensuring zero data inconsistencies.

EcoSync – Waste Management System ([link](#))

Mar 2024 – May 2024

- Developed a responsive React interface used by 3 user roles across the waste management workflow
- Implemented real-time scheduling and analytics, reducing route-planning time by ~25% in testing

ACHIEVEMENTS

- **Champion**, Code Samurai 2024 Preliminary Round (14,450 pts)
- Ranked 227th – ICPC Asia Dhaka Regional 2024
- Ranked 179th – NCPC Asia Dhaka 2023
- Ranked 115th – Orbitax SUST SWE Technovent 2023
